

Finding Unmet Legal Need - Target Tracts

According to regression analysis, these areas are places with the following 3 characteristics:

- 1) A high likelihood of demand for LCD services
- 2) A comparatively low number of current LCD clients
- 3) An LCD target population of >200 individuals

There are 60 census tracts included, with a combined population of 120,000, of whom **25,000** are in LCD's target population.
